

# Autopsy Report

**Case:** The Wedding Day Murder  
**Victim:** Sarah Thompson  
**Date of Examination:** 13 June 2024  
**Examiner:** Dr. Helen Morris, Chief Medical Examiner

Field	Findings
Estimated Time of Death	16:45 – 17:00
Cause of Death	Poisoning
Toxicology Results	Traces of cyanide compound found
Physical Trauma	No significant external injuries observed

## Additional Notes

Chemical analysis indicates that the toxic substance was ingested orally. The absence of injection marks suggests the poison was administered via a beverage.

## Conclusion

The findings are consistent with deliberate poisoning. The narrow time window of death aligns with the final stage of the wedding reception.

Report ID: CC-AUT-001  
Issued by: ColdCase Forensic Department
